

High quality under counter filter housings at highly competitive prices

Single Cartridge Filter Housings

Our under counter filter housings are manufactured from the highest quality, FDA grade, 100% polypropylene and acrylic styrene. Leak-proof sealing is accomplished by compression against a top seated EPDM o-ring located in the housing's sump. Thick wall and added ribs make the housings ideal for a wide range of applications. Polypropylene construction provides excellent chemical resistance with most acids, alcohol, ammonia, oils, plating solutions and many aggressive chemicals. Housings supplied with and without pressure release valves. Rated for temperatures to 125°F (52°C) and pressures to 125 psid (8.75 bar).

Full product line

We offer a complete line of under counter filter housings for virtually every application where single cartridge housings are typically used. Select from standard, heavy duty, full-flow, high purity, high temp and valve-in-head models.

Residential & Commercial
4200, 7000, 4500, 8000 series.

Full-Flow (B-B)
5000 & 10000 series.

Clear housings
To know when cartridge replacement is necessary.

High-Temp
For 200°F (93°C).

Valve-In-Head
Three function valve with shut-off in clear or opaque.
